Получаем диалог с ключом зашифрованным флагом. Первым делом обращаем на имя Bofor.
Сразу гуглим “Шифр бофора”.

- Bofor, what a "green infection"? Or her ...

- Smallpox, brother. This infection died a few decades ago, but then the terrorists smeared it on bucks - just before Christmas. Creatively approached the case.

- Ha! Fuck they could need it?

“Well, if it weren't for them, you'd still be sitting in the cell, right?”

- Maybe it would be better.

- And then? What do you shone after the release? Shitty job and police visits once a week?

Well, would sell something, and then you would be robbed. Sooner or later you would be in prison again, as if I were telling you. Listen, I prepared something for you. Try the key ...

LEEGAPTJVDUCC

- What is it?

- Find out. Know, "green poison" - this is our chance to go to the people.
